

# Build Nabor House

The Fraternity Board has set a goal to build a new house on the existing 1002 S. Lincoln Avenue address in the summer of 2012. This is an aggressive goal but we feel that we can make it a reality with the help of our alumni. Below are some key points about the project:

- Total cost of the project is estimated to be \$2 million.
- Fundraising goal is to raise all money through alumni donations and avoid debt.
- Modular building approach will be utilized so that the House can be built over the summer, eliminating the need to displace the Active Chapter during the school year.
- New house capacity will be 40-45 men.
- Layout will be similar to current house, with study rooms and dorm sleeping area.
- New house will have better wiring, improved heating and cooling systems, better exits, a sprinkler system and handicap accessibility.
- Fraternity Board elected to build new house, rather than retrofit old house to meet 2012 sprinkler code, at cost of \$60,000-75,000.
